EXAMINER'S AMENDMENT/COMMENT

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-30 is the inclusion therein of the limitations of an image processing apparatus and related method, including color separation means for determining a predetermined conversion relationship relating to the generation of color material data of the plurality kinds of color material including a plurality of color materials of the same color but different in concentration, on the basis of colorimetric values of the patches which are outputted based on the determined combinations of data for the plurality kinds of color material for the patches. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
